

Our Solar Power Solution

In the beautiful and diverse islands of the South Pacific, staying connected and powered is essential. From remote communities to fishing fleets, from small businesses to preparing for a storm, you need a power solution you can trust.

The Powershield Primus Charge is a compact, portable solar battery designed to be your dependable companion, providing clean, silent power wherever you are. No more relying on noisy, expensive generators or worrying about power outages. With the sun as your fuel, you can keep your Household, School or your community running smoothly.

Why the Powershield Primus Charge is Perfect for the Pacific

- **Solar Powered Independence:** Easily charge the unit using its foldable solar panel. This means you have power no matter how remote your location is.
- **Built for Durability:** Constructed with a rugged, splash-proof casing, the Primus Charge is designed to withstand the humidity and demanding conditions of island life.
- **Lightweight & Portable:** Weighing only a few kilograms, it's easy to carry on a fishing boat, to a remote clinic, or on a remote community.
- **Power for What Matters:** With multiple USB and AC outlets, you can charge essential devices like mobile phones, lanterns, two-way radios, laptops, and more. Keep your communication open and your lights on when you need them most.
- **Emergency Ready:** In the event of a cyclone or other natural disaster, the Primus Charge is a lifeline. It provides critical power for communication and emergency lighting, ensuring the safety of your family and community.
